

Outsourced Finance & Accounting Services

QUICKBOOKS HOSTING SERVICES

Hosting Solutions by Alan Neal & Associates, Inc.

Many small as well as large businesses face the challenge of making critical accounting applications available to different users at different locations with real-time data. Alan Neal & Associates, Inc. (ANA) QuickBooks hosting service helps you ensure that QuickBooks is available to your employees and business partners 24/7 without the chance of a failure. What's more, if you have different offices, ANA's hosting service ensures that QuickBooks is accessible from all locations. You also save on the cost and effort of installing sophisticated servers to support your QuickBooks software.

With us, it is as simple as selecting which QuickBooks hosting solution suits your business the best and handing over its management to us. If you are unsure of the kind of solution you want, our expert staff can help you select the one which is most suitable for your business. As a QuickBooks hosting service provider to many clients, we know exactly how to manage them. With us in the picture, you can avoid problems related to self-hosting and have your QuickBooks available at all times. Our scalable services will also help you save on time spent on application downtime, allowing you to focus on core business activities.

QuickBooks Hosting Details

- Your QuickBooks software is securely stored in SAS 70, Type II certified data centers.
- Because your computing infrastructure is safely housed in multiple data centers, if disaster strikes, you need only a computer and access to the internet to be back in business.
- You and your management team will have complete online access to your QuickBooks files.
- Our electronic document management services allow you to rapidly retrieve electronic copies of documents associated with any transaction.
- We also offer back up services for all your electronic data.

For additional information regarding our hosting services or to receive a free analysis of your accounting system, please call us today at 423-756-4076.

Benefits

- 24/7 application availability
- Reduce cost of infrastructure
- Cost-effective back office support
- Avoid problems of self-hosting
- Dedicate more time to core activities
- Secure and scalable services
- Specialized experts for support
- Affordable solutions

“When our accounting system crashed, we lost all of the financial information. Alan Neal & Associates, Inc. was able to rebuild all the information on their own server for us in a short period of time. They have the ability to resolve important issues quickly.”
