

Customized Solutions for Startups

The needs of a startup are different from the needs of a more mature business. Startups are often entrepreneurial ventures with a need to acquire customers quickly while conserving cash. At Alan Neal & Associates, Inc. (ANA), we have the technology and expertise to help you successfully launch and run your startup.

We offer a full range of accounting, bookkeeping and support solutions geared towards helping startups like yours sustain growth while running efficiently. Our Startup Solutions are designed to help get your business off the ground. We can accommodate you by providing the resources you need without the added cost. Our Startup Solutions Packages can be tailored to your company's needs, and the services included can range from setting up your QuickBooks and accounting system to providing bookkeeping, controller, CFO and business advisory services.

When you partner with the ANA team to manage non-essential functions, you reclaim time to focus on your customers.

STARTUPS

Benefits

Customized business solutions for your startup business

Scalable services, available when required by the demands of your business

Timely and accurate reporting of financial data

Leverage technology, expertise and infrastructure cost effectively

Access to experts who can advise you on growing your business

“Alan Neal & Associates, Inc. can make a huge difference in the growth and success of a startup by carrying the heavy load of accounting, bookkeeping, financial reporting and business advising, leaving the core team to focus on numerous other issues. ANA is similar to having a dedicated team without paying top price for professionals.”
